Mr. Gary Dietrich
Citizen Voice's SAFELY OUT™ Project
1215 K Street, 17th Floor
Sacramento, CA 95814

Dear Gary,

What a pleasure it is to be involved in the Safely Out project with you, Elyse and your staff. Safely Out is such a simple idea, learned at the cost of many innocent lives and hopefully never repeated for a mere donation of \$10.00: Genius, Gary, simply genius.

My support of your program is born out of wanting to do something positive for the community where I have lived, raised my family and prospered for the past 46 years. The fact that Safely Out so closely aligns with the business that I have nurtured most of those years is a blessing and a bonus for us both.

I own Steamatic of Sacramento, a 36-year-old cleaning and restoration company that has helped thousands of people deal with the trauma of fire and water damage losses at their homes and businesses. And, because of my first hand experience with catastrophic flooding in and around Sacramento in prior years, I know our ability to help in an area-wide disaster would be almost nil.

That's why the Safely Out project is such a perfect fit for me and Steamatic of Sacramento. This is a program that establishes a neighbor-helping-neighbor approach to disaster response and helps our most vulnerable citizens prepare for safe evacuation.

Sincerely,

A handwritten signature in blue ink that reads "Charles E. Cassani".

Charles E. Cassani, President
Steamatic of Sacramento, Inc.
